What is PutraMOOC?

An initiative of open education by UPM

UPM Massive Open Online Courses

Registered domain for UPM MOOC platform
www.putramooc.upm.edu.my/mooc/

SHIFT #9: Globalized Online Learning

of Malaysian Education Blueprint:
Higher Education 2015 - 2025

Focus

Enhancing the quality of teaching and learning; bringing niche area to Global arena; visibility, positioning and branding; as well as lifelong learning.

**UPM Global
Online
Learning
Empowerment**

**Blended Learning Substitute
(Pembelajaran Teradun Gantian)**

A teaching approach that combines physical and virtual meeting (maximum of 79% online). In UPM the maximum virtual lessons allowed is 7 weeks. The number of learning elements to be developed is based on the course's credit hour.

PutraMOOC (Putra Massive Online Course)

A PutraMOOC that meets the quality standards will be offered to four target participants which are academic students, community, industry and individuals

**Credit Transfer MOOC
(Pindah Kredit MOOC)**

Students are allowed to transfer credit from equivalent MOOC courses into their academic program in UPM

PutraOVS (Putra Online Visiting Scholar)

Scholars from and outside UPM are engaged for online service within minimum 2 weeks

PutraCGOL (Putra Collaborative Online Learning)

Students in UPM and collaborating international institution learns together online between 4 to 6 weeks in an academic course

Initiative 1- 5 can be performed through PutraMOOC

PUTRAMOOC COURSE OFFER STRATEGY

* Faculty / School can offer the same PutraMOOC courses in various forms of offer categories.

CATEGORY

ACADEMIC

SPECIAL COMMUNITY

INDUSTRY

PUBLIC SOCIETY

TARGET PARTICIPANTS

Students enrolled in any academic program (eg higher education institutions and schools)

Specific communities (e.g. uniformed team clubs using PutraMOOC courses as knowledge development training)

Industry (for example, the training unit of a company that takes PutraMOOC courses to improve staff competencies)

Public (taking PutraMOOC course to improve general knowledge and develop self-competence)

80%

PutraMOOC courses offered through the Academic category require

content equality

to provide an opportunity for students to apply

MOOC credit transfer

Support "University for Society" in UPM Strategic Plan 2020-2025

Strengthening the impact of development expertise and knowledge - UPM global visibility

Innovation in attracting new students for various academic programs at UPM

One of the options for community and industrial networking activities by the faculty

Activities with MoU partners

As Summer Camp program by faculty

Opportunities for students to apply for MOOC Credit Transfer

<http://putramooc.upm.edu.my/mooc/>

Flashback.....

PutraMOOC in 2016:

- 4 courses: TITAS, Kesenian Melayu, Agriculture and Man, Malaysian Food Heritage
- Offered in OpenLearning

PutraMOOC progression

Exploration

PutraMOOC was introduced as an initiative for global online learning. In year 2016, 4 courses are launched

Reinforcement

16 PutraMOOC courses have been active between year 2014 until 2018. Each faculty is requested to develop 2 PutraMOOC courses

Empowerment

A new PutraMOOC platform is launched, at www.putramooc.upm.edu.my/mooc
PutraMOOC course quality assurance is implemented

Acceleration

24 PutraMOOC courses are ready to be offered. Focuses on outreaching to inclusive learners. Credit Transfer MOOC to support flexible curriculum

Perkembangan PutraMOOC

Penerokaan

PutraMOOC diperkenalkan sebagai inisiatif pembelajaran global dalam talian

Pengukuhan

16 kursus PutraMOOC siap dibangunkan sehingga tahun 2018. Setiap fakulti membangunkan sekurang-kurangnya dua kursus PutraMOOC

Pemeriksaan

Platform PutraMOOC baharu dilancarkan di www.putramooc.upm.edu.my/mooc
Jaminan kualiti kursus PutraMOOC dilaksanakan

Pemacuan

24 kursus PutraMOOC sedia ditawarkan memfokuskan kepada pembelajaran inklusif.

Outcome Based Education

[Synopsis](#)
[Learning Outcome](#)
[Teaser](#)
[More Details](#)

This course focuses on Outcome Based Education (OBE) by emphasizing on understanding, principles and processes which includes plan, implementation, monitoring and evaluation. The courses also describes Bloom Taxonomy domains, construction of learning outcomes, **constructive alignment** between learning outcomes, teaching and assessment activities as well as attainment of learning outcomes.

Social forum

From this course, I have learnt about the key things and important terms in Outcome Based Learning (OBE), for example Learning Outcomes, Assessment Tools and Learning Activities. I also gained better understanding on the implementation process of OBE. I also have more understanding on best practices in achieving the learning outcomes of my courses. I hope to be able to improve my assessment tools in the future, to be able to attain the learning outcomes better.

Testimonies for PutraMOOC Outcome Based Education

Great effort taken to make these courses available to help lecturers in teaching and a lot of videos as well as ideas. For lecturers who are busy juggling between teaching, clinical works and research, the information provided are overwhelming.

First, I would like to congratulate CADE teams for the very informative course entitled "Outcome-Based Education (OBE)". OBE means clearly organizing and coordinating everything in the education system around what is needed for all students to be able to learn well at the end of their learning process. As an educator, OBE helps me to grasp and distinguish on how to analyze the curriculum, courses and learning outcomes (LO). This is important to ensure that the students can develop the knowledge and skills needed to pursue their career in the future successfully. OBE also encourage me to be more professional, responsible and accountability about the work I do as a teacher/academic staff. OBE also allows me to improve on teaching style and reflect teaching methods.

OBE reflects me to plan what students want to achieve from their courses. I need to plan/design in terms of activities (SCL), delivery methods (e-learning) the content, as well as the time, spend with the students. Reflection can be done from the assessment in terms of test; summative or formative assessment. Also, OBE helps me to improve my teaching skills through the learning experience by students. For me, OBE is something to do with professionalism, accountability, and responsibility. There is flexibility in choosing my delivery method depending on the domain I want to develop, whether it is a cognitive domain, affective or psychomotor domain, as long as I could deliver the learning outcome. I have focused more on what the students have achieved rather than focusing on the content of what has been taught. Therefore, this can ensure that students are well equipped with the knowledge, competence, and qualities needed to be successful after they exit the educational system.

STEPS TO BECOME INNOCREATIVE EDUCATOR

1. Become knowledgeable

The passport to become a good teacher is being educated in the area, to be able to draw on experience and interests

Begin

5. Be confident

6. Practise

7. Start experimenting

The first step of creativity is to break for commonalities. One has to be brave to innovate and take the first step to employ and implement ideas to be able to explore

8. Make it a habit

Make creativity a daily goal to continuously improve towards higher heights

2. Connect with other teachers

3. Become a collector of creative ideas

4. Share your learning

The keyword is to network with a community of educators to exchange best practices

By: Centre for Academic Development,

creative Educators

Imagining InnoCreative Educators

Synopsis

Learning Outcome

Teaser

More Details

InnoCreative Educator is an important 21st Century teaching skill towards producing future ready graduates. In order to ensure impactful teaching, course should be redesigned by emphasizing all the three aspects of continuous quality improvement which are learning outcome, delivery and assessment. This course focuses on the variation of teaching approaches in order to address diversity of learning needs. The content are prepared based on the teaching practices by InnoCreative Educators from diverse disciplines. The course is structured according to clusters where assortments of teaching approaches implemented in relevant courses were shared. The activities and assessments in this course cover the collaborative development of innovative teaching delivery which are expected to assist in the equipping an educator aspiring to be an InnoCreative Educator.

<http://putramooc.upm.edu.my/mooc/course/info.php?id=3>

From this course, I have been inspired to improve myself towards an InnoCreative Educator. The way of delivering contents through creativity and innovation really managed to capture my attention. I learnt about many new things that are do-able in teaching and learning. Gamification has certainly captured my attention as it is do-able and exciting for students. I hope to be able to help students learn new skills and knowledge, not only academically but also in their soft skills.

From my point of view the Imagineering Innocreative Educators courses have definitely proved to be one of the most interesting education courses I have taken. The contents of the courses were organized and easy to follow through a short animated video generated using Powtoon and notes. In this course, I learnt a lot of content. I have reviewed a lot of what I know about innocreative teaching in terms of how to deliver engaging delivery, educational gamification, blended learning components that can be used in teaching, immersive learning and role modelling. In addition, I have learned how to implement the Innocreative Teaching in different fields including science and technology, medical and health sciences, social sciences and applied sciences. This comprehensive mooc course really taught me a lot of beneficial content as well as teaching method. Good job!

I learned about the teaching techniques through sharing experiences. I managed to identify the learning needs, to discuss the challenges in designing teaching innovations, and to analyze the impacts of innovation towards the learning accomplishment. Also, I have implemented the quality of teaching such as gamification, using technology, immersive learning (face to face learning, blended learning, and online learning). To become an innocreative educator, I need to have critical thinking such as involves taking outside knowledge into account while evaluating information. Also, analytical thinking helps me to break down complex information into smaller parts. Then, creative thinking led me to heighten anticipation, deepen expectations, and extend the learning. Furthermore, I would be able to describe teaching innovations for various and specific learning needs, for example teaching without lectures, mobile apps, and virtual applications. Moreover, students managed to come out with the potential innovation to be applied in their teaching to make it more effective.

Thank you for CADE UPM for initiating the PutraMOOC for Imagineering InnoCreative course. This course is easy to understand. Very informative and interactive. Many examples of innovation in teaching for various field of studies are introduced in this course. The most important thing about this course is it has motivated me in preparing my online course similar to PutraMOOC has provided.

Testimonies for PutraMOOC Imagineering InnoCreative Educator

Offered for the first time during Movement Control Order for UPM Induction Course.

This course is also open to anyone interested to learn about e-Learning initiatives in UPM

e-Learning UPM

Synopsis

Learning Outcome

More Details

e-Learning is the pulse of teaching and learning in Universiti Putra Malaysia (UPM). It is a culture that has been nurtured since 2015, especially through the usage of online Learning Management System (LMS). This course introduces about e-Learning initiatives in UPM which covers the ecosystem of e-Learning that support technology enhanced active learning implementation. Blended learning, massive open online course and e-Learning culture are also discussed.

Agriculture & Man

Synopsis

Learning Outcome

Teaser

More Details

This course encompasses the evolution of agriculture from the beginning to the present as a planned activity for food security and wealth creation driven by economic development and technology in a sustainable manner. Modern agriculture is presented as a science, an art and a business encompassing its role and impact on resource utilization and human development.

(Kursus ini merangkumi evolusi pertanian daripada permulaan kepada masa kini sebagai aktiviti terancang untuk sekuriti makanan dan penjanaan kekayaan, didorong oleh kemajuan ekonomi serta teknologi secara lestari. Pertanian moden dipaparkan sebagai sains, seni dan bisnes yang meliputi peranan dan impaknya terhadap penggunaan sumber dan pembangunan manusia.)

Kursus ini merangkumi prinsip asas patologi yang merangkumi patologi am dan patogen serta hubungkait dengan pengetahuan anatomi, fisiologi dan biokimia. Ia merangkumi aspek etiologi, patogenesis, perubahan morfologi dan kepentingan klinikal. Ia juga merangkumi pengetahuan tentang mikroorganisma penyebab penyakit berjangkit. Ia juga meliputi ciri, cara penyebaran, patogenesis dan manifestasi klinikal penyakit tersebut. Diagnosis dan prinsip rawatan dan pencegahan penyakit berjangkit juga ditekankan. Ia turut merangkumi tempat jangkitan menurut sistem dalam tubuh badan manusia.

(The course encompasses principles of basic pathology which include general pathology and pathogens and relates with anatomy, physiology and biochemistry. It covers aspects of aetiology, pathogenesis, morphological changes and clinical significance.) The course also encompasses the knowledge of causative microorganisms in infectious diseases. It also covers the characteristics, modes of transmission, pathogenesis and clinical manifestations of the disease. Diagnosis and principle of management of infectious diseases are emphasised. It also covers all parasitic infection according to its distribution in human body)
