### 1. Introduction

In 2015, UPM's LMS are given a new breath which is called Putra Blended Learning System and Assistive Technology or PutraBLAST. PutraBLAST was developed internally in collaboration with the Centre for Development of Information and Communication (IDEC) UPM by using Moodle platform. Moodle is a popular platform and best seen nowadays in implementing online learning. In addition to user-friendly and easy to use, it is also free to use, and can be improved according to university needs.

PutraBLAST or Putra Blended Learning Assistive System & Technology is an info structure management and delivery of learning content, teaching and learning evaluation, progress tracking and monitoring of the learning process in UPM. The system is expected to meet the requirements of integration with a variety of the latest technologies can be easily reached.

# 1. Introduction

## 1.1 What is BLASTARC?

BLAST Archiving System or BLASTArc aims to facilitate access to files / content of the course in the current and previous semesters. Academic staffs are able to download and execute a backup for these files / content of the course. This would be beneficial for academic staffs with multiple groups for the same course OR for academic staffs that teach the same course every semester / year.

## 2. Blended Learning

Blended Learning (BL) is formal learning where teaching and delivery of content is conducted online. Blended Learning refers to a course that has a mixture of online learning mode and learning mode on a face-to-face learning site with 30% - 79% of course content and activities conducted online either to support (pembelajaran teradun sokongan, PTS) or replace (pembelajaran teradun Gantian, PTG) face-to-face learning (E-learning Guidelines for Malaysian HEIs, 2014 ).

Blended Learning (BL) at UPM has been readily practiced since 2015 using the UPM Learning Management System, PutraBLAST through the supported blended learning mode (PTS) which involves the use of technology to support the delivery of learning. PTS is monitored based on the provision of a minimum of 7 content elements, 3 activity elements and 2 assessment elements in the course at PutraBLAST.

Replacement blended learning (PTG) is the implementation of virtual lectures instead of face-to-face lectures with a maximum duration of virtual lecture hours (JKM) of 7 weeks or 50% of the total face-to-face lecture hours (JJBK). PTG enables online delivery of lectures in synchronous or asynchronous mode. The implementation of PTG through a minimum number of learning items (content, activities and assessment) based on the choice of percentage (30% to 50%) from JJBK and must achieve at least one course learning outcome. From semester 2-2022/2023, the implementation of PTG is based on self-instructional materials (SIM). The SIM guide has been developed ([https://cadelead.upm.edu.my/e\\_pembelajaran\\_upm/self\\_instructional\\_materials\\_sim-14530](https://cadelead.upm.edu.my/e_pembelajaran_upm/self_instructional_materials_sim-14530)) and has been widely distributed to academics via email and website.

Scan this qr code to download SIM guideline

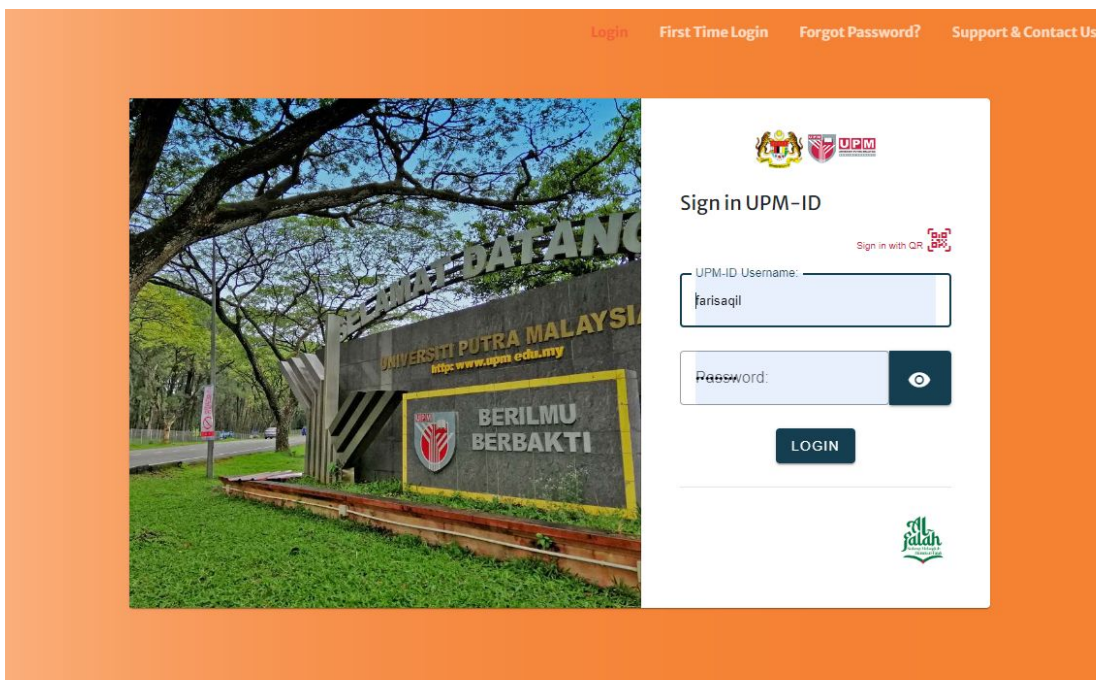

### 3. Access To The Putrablast Portal

The PutraBLAST system can be reached through the following URL:

Note: Please visit <http://learninghub.upm.edu.my/> to get the latest access/link

All administrators are required to log in using UPMID before being able to use PutraBLAST.

## 4. Page View After Successfully Login

### 4.1 Dashboard

Includes various course information that students have taken. The information is such as course code name, course name, course completion percentage, calendar, timeline and others.

User also can open or hide the left and right side bars based on the icon shown below respectively.

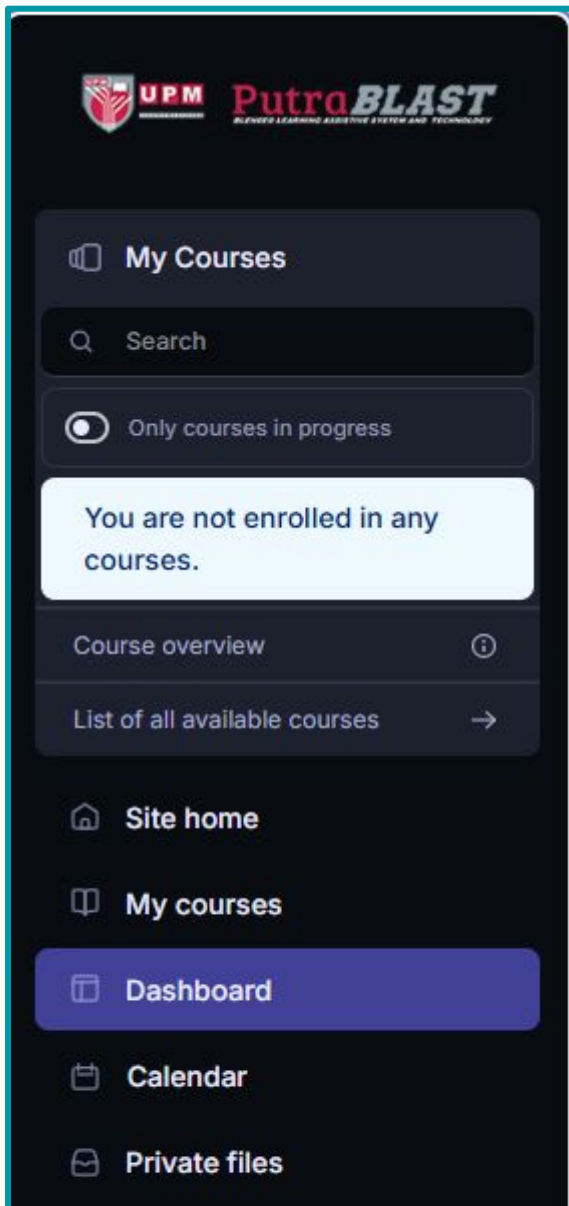

The screenshot displays the PutraBLAST dashboard interface. At the top left, the PutraBLAST logo is visible. A red arrow labeled '1' points to a hamburger menu icon (three horizontal lines) in the top navigation bar. At the top right, there are icons for settings, refresh, notifications, search, and user profile, along with an 'Edit mode' toggle. A red arrow labeled '2' points to a right sidebar toggle icon (a square with a vertical line) in the top right corner. The main content area is titled 'COURSE OVERVIEW' and features a central message: 'You're not enrolled in any courses. Once you're enrolled in a course, it will appear here.' Below this message are two buttons: 'Manage courses' and 'Create course'. The bottom section is titled 'CALENDAR' and shows a calendar for July 2025. A dropdown menu is set to 'All courses'. A 'New event' button is located in the top right of the calendar section. The calendar grid shows dates from 1 to 31, with the 24th highlighted in blue. At the bottom of the calendar, there are filters for 'Site events', 'Category events', 'Course events', 'Group events', 'User events', and 'Other'.

## 4. Page View After Successfully Login

### 4.2 Sidebar

There are one sidebars on the left and a block drawer on the right. First, the right drawer block show information such as PutraBLAST archiving list and PutraBLAST helpdesk info. For the left sidebar, it show navigation to course overview, my courses, dashboard, calendar, and private files.

Left

Right

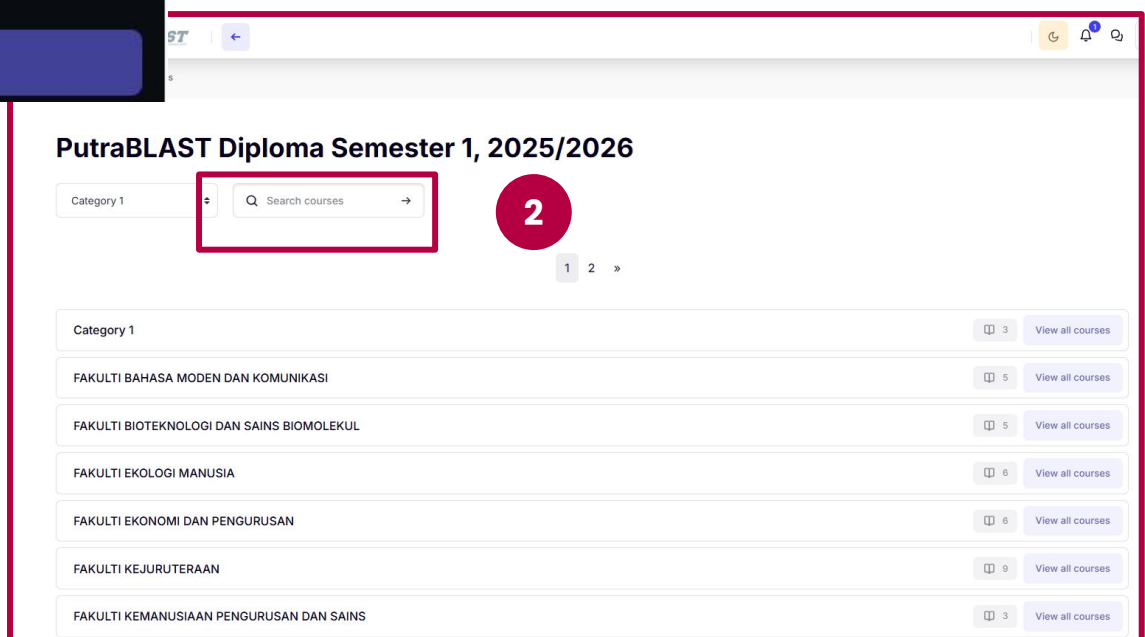

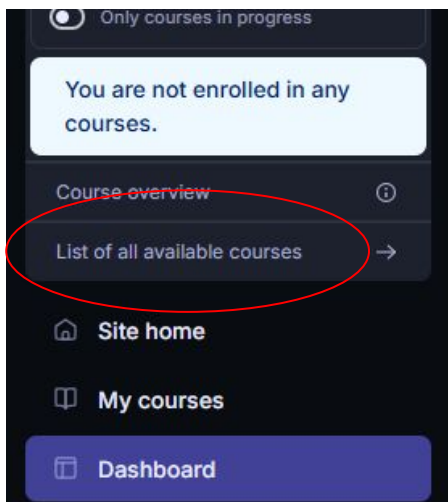

### 5. Course List and Search Review

The course, lecturer and student data found in PutraBLAST is the latest data taken from the Student Information System (SMP) and the Internet Graduate Information Management System (iGIMS).

Any information changes implemented in SMP or iGIMS will take 24 hours to be updated to PutraBLAST.

- To review a course, click on List of all available courses on the **left sidebar** to start reviewing the course list.
- Then type the **COURSE CODE** in the Search course column and press Enter.

### 6. Lecturer and Student data review

The course, lecturer and student data found in PutraBLAST is the latest data taken from the Student Information System (SMP) and the Internet Graduate Information Management System (iGIMS).

Any information changes implemented in SMP or iGIMS will take 24 hours to be updated to PutraBLAST.

To check the lecturer's name and the list of students click on Participants on the Navigation Block at top of the course page to check the list of lecturers and students.

## **8. Solution Steps Related to Data Problems**

If the administrator receives complaints from lecturers and students encounter problems in their PutraBLAST accounts, the following are the steps that can be taken to overcome the problem:

### **There Are No Courses In The PutraBLAST Account**

1. Review with the Division of Academic Administration (BA) for pre-graduate, diploma, pre-diploma and foundation programs (eSMP).
2. Check with the School of Graduate Studies (SGS) for graduate programs (iGIMS).
3. If the course is confirmed to be in eSMP or iGIMS, please inform the Teaching and Learning Innovation Division (putrablast\_admin@upm.edu.my) or directly to SPICT to update the course list.
4. If a new course is updated (at eSMP/iGIMS) on the same day, the course list will be updated on PutraBLAST within 24 hours.

**2**

## **Names Of Students And Lecturers Are Not Registered In PutraBLAST**

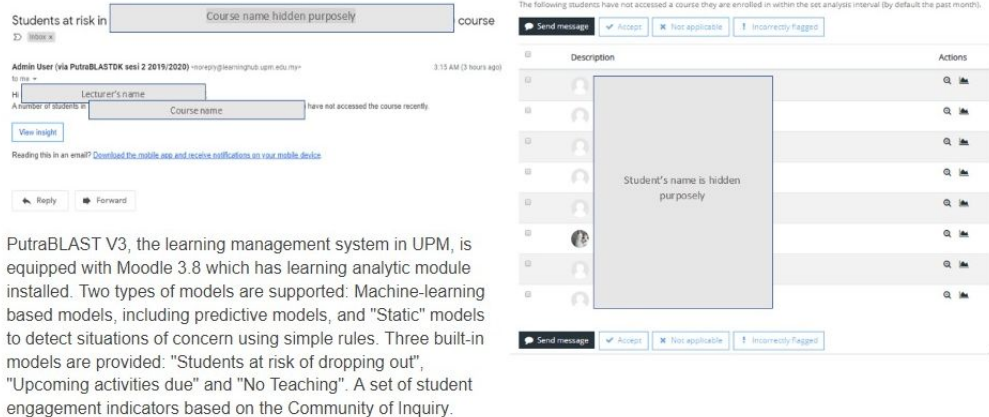

1. Check the names of lecturers and students with the Department of Academic Administration (BA) for pre-graduate, diploma, pre-diploma and foundation programs (eSMP).
2. Check lecturer names with the School of Graduate Studies for graduate programs (iGIMS).
3. If the names of the lecturers and students have been registered in eSMP or iGIMS, please inform the Teaching and Learning Innovation Division (IPP), CADe-Lead and include the registration slip for updating the course list.
4. For graduate students facing UPM-ID problems, please cooperate to check the activity status at the SGS Management Office for more information. (usually during exam week)

3

## Students At Risk

1. **Reason:** Students have not opened/Log-in PutraBLAST for a long time
2. **Answer:** The "student risk" notification/email received is a notification automatically generated by the PutraBLAST system. Does not cause any problems to the PutraBLAST account or the course.

### Implementation of Student at risk prediction in UPM using Moodle 3.8

The screenshot displays a Moodle 3.8 interface. On the left, a notification titled "Students at risk in [Course name hidden purposely] course" is shown. The notification content includes: "Admin User (via PutraBLASTDK sesi 2 2019/2020) <admin@learninghub.upm.edu.my> 3:15 AM (3 hours ago)", "Hi [Lecturer's name]", "A number of students in [Course name] have not accessed the course recently.", and a "View insight" button. Below the notification, there is a "Reading this in an email? Download the mobile app and receive notifications on your mobile device" link and "Reply" and "Forward" buttons. On the right, a table titled "Students who have not accessed the course recently" is visible. The table has columns for "Description" and "Actions". The "Description" column contains a large grey box with the text "Student's name is hidden purposely". The "Actions" column contains search and delete icons for each row. At the bottom of the table, there are buttons for "Send message", "Accept", "Not applicable", and "Incorrectly flagged".

PutraBLAST V3, the learning management system in UPM, is equipped with Moodle 3.8 which has learning analytic module installed. Two types of models are supported: Machine-learning based models, including predictive models, and "Static" models to detect situations of concern using simple rules. Three built-in models are provided: "Students at risk of dropping out", "Upcoming activities due" and "No Teaching". A set of student engagement indicators based on the Community of Inquiry.

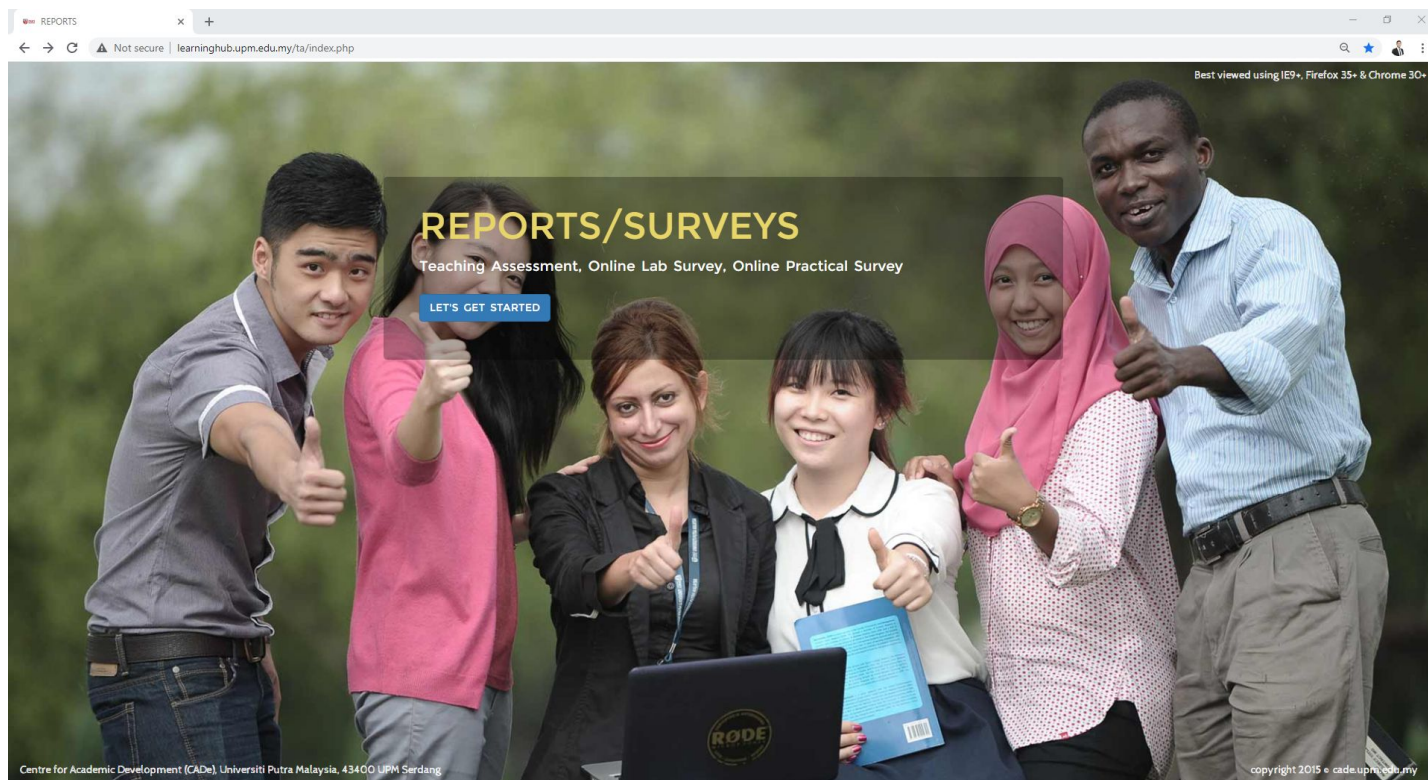

4

## Unable To Access PutraBLAST (ERROR 404 / Different Layout)

1. Lecturers and students are advised to delete the cache on the browser (refer to the [link here](#)),
2. or (if still not finished) please use another browser or device.

## 9. Online Survey Collaborative and Report (OSCaR) module

Blended Learning

Teaching Assessment

Online Practical Survey

Online Lab Survey

The OSCaR system can be reached via the following URL:

<http://learninghub.upm.edu.my/ta/index.php>

To login, enter Putra's Username and Password (UPMID)

A screenshot of the UPM Application login form. The form is enclosed in a green border. At the top left, there is a logo consisting of a globe and a server stack. To the right of the logo, the text reads 'UPM Application' and 'UPM application.'. Below this, the instruction 'Enter your UPM-ID and Password' is displayed. There are two input fields: one for 'UPM-ID:' and one for 'Password:'. At the bottom of the form, there are two buttons: a green 'LOGIN' button and a grey 'CLEAR' button.

## 10. Blended Learning (BL)

Blended Learning (BL) refers to courses that have a mixture of online and face-to-face learning approaches with 30-79% of course content, activities and assessment conducted online either supporting or replacing face-to-face learning as contained in National e-Learning Policy 1.0 (DePAN, 2014) and (Sloan Consortium, 2010).

### Blended Learning Achievement Report

BL achievement target at UPM in 2022:  
70% of active courses at UPM achieve BL status.  
(In line with the target of Phase 3 (2021-2025) of the National eLearning Policy 2.0.)

Be informed that ONLY active courses in On-Campus Programs (Masters and Bachelors) and Diploma Programs are taken into account for BL achievements so far

The achievement of BL UPM status takes into account the implementation of PTS and PTG. By using BL, academic staff not only make teaching and learning more interactive and effective, but the implementation of BL in the classroom also provides the following benefits:

- Students' personal learning experiences increase engagement and motivation
- Support student-centered learning
- Maximize the use of face-to-face learning
- Promoting the flipped classroom

- Medical
- Agricultural Science Foundation

### Excluded courses

Seminars, Industrial Training, Bachelor's Dissertation/Final Year Scientific Project

### Teaching assessment monitoring

- The system administrator needs to monitor the teaching evaluation status throughout the evaluation period
- Monitoring needs to be done through the system to ensure:
  1. All evaluation data (courses, lecturers and students) are accurate
  2. All courses are evaluated by students
  3. The percentage of respondents for each course is at least 30% (this percentage is subject to faculty/university regulations)

2	The lecturer clearly explains the learning outcomes. <i>Pensyarah menerangkan hasil pembelajaran dengan jelas.</i>	44	60	273	1297	4923	4.67
3	The lecturer clearly explains the teaching content. <i>Pensyarah menerangkan isi pengajaran dengan jelas.</i>	48	71	301	1257	4920	4.66
4	The lecturer gives me opportunities to express my opinions. <i>Pensyarah memberi saya peluang untuk mengemukakan pendapat.</i>	45	53	288	1181	5030	4.68

## 18. Online Practical Survey (OPS)

CADe-Lead provides a platform for the evaluation of farm practice services through the **Online Practical Survey (OPS)** system that can be operated by the University Agricultural Park.

### System Administrator Actions

1. Plan the date and period of implementation.
2. Inform students to make an assessment within the specified period
3. Update employee data. Data updating can be done through the following menu (OSCaR Module):
  - a) **Setting> Update Lab/Field** to update the information (name) of the assessed farm; and
  - b) **Settings>Assign Course with Lab/Field & Demo** for setting the course with the responsible officer.
